

REPORT

The Regional Council approved the Merit Pay two-year pilot program in July 2004 and requested periodic updates.

In July 2004 all employees were evaluated and compensated under the Merit Pay pilot program.

In October 2004, May 2005, October 2005, and October 2006 program status reports were provided to the Personnel Committee.

In December 2006, the Regional Council acted to recommend that the pilot program be extended through July 2007 to allow further refinements to the program.

BACKGROUND:

SCAG staff receives compensation adjustments only through the Merit Pay Program. The percentage increases per rating category, as approved by the Regional Council in 2001, are as follows:

Evaluation Rating	Percentage Adjustment
Excels	7-9%
Above Standards	4-6%
Meets Standards	1-3%
Needs Improvement or Unsatisfactory	0

SCAG staff does not receive cost of living adjustments and they do not receive step increases. The salary ranges may be adjusted annually if they are determined by a salary survey to no longer be at the Regional Council approved level of the 75th percentile. Only those employees that fall below the new bottom of the range are adjusted at the time of a range change. A salary survey is conducted annually to determine if adjustments are necessary. Any suggested changes to the ranges are provided to this committee prior to implementation.

EVALUATION RATING STATISTICS & SALARY ADJUSTMENTS:

The evaluation rating statistics and applicable salary adjustments are listed on the following page. The Excels and Needs Improvement rating categories have remained relatively constant for each year. While the Above Standards category has gradually increased and the Meets Standards category has gradually decreased. This is reflective of the performance of the organization as a whole, in that it has improved in the last four and a half years.

In July 2003, employees below the senior level were eligible for a 3% or 0% salary adjustment based on the prior evaluation system. In July 2004, all employees became eligible for the Merit Pay program.

In all years of the program, employees who are at the top of the salary range received a lump sum equivalent to the percentage that was over the top salary range. Effective in July 2006, these lump sum payments are counted by CalPERS as part of an employee's eligible compensation. This became effective with the lump sum payments in July 2006.

Average overall salary increase for fiscal years 2002/2003, 2004/2005 and 2005/2006 were 3.64%, 4.3% and 4.10%, respectively.

Performance evaluation and performance management training was provided in November 2004, May 2005, spring 2006 and November 2006 for all management/supervisory employees. The current review cycle is scheduled for completion in July 2007.

We are continually improving the process and continue to refine the linkage between the employee performance agreement, professional development goals, the mission statement, values statement and the rating criteria. We are updating the performance agreement and the performance evaluation forms for FY 07/08 to incorporate the April 2007 SCAG Values Statement and input received from managers and directors. After more than four years of using a standardized evaluation form and process, we are experiencing improvements in the overall performance of the organization and the staff. The rating distribution is a good indicator of the performance of the organization as a whole. We determine the success of the program based on the rating statistics, the content of the written evaluations, and the effectiveness of performance management on improving staff performance.

REPORT

Starting in July 2008, managers will have the discretion to recommend varying levels of pay within the same rating category for their staff. During the pilot status, we applied a fixed percentage in each rating category for the given level of performance. Now that the program is more sophisticated and the evaluators are more experienced, they will be provided with more discretion in recommending pay. For example, a manager with four employees rated as overall Meets Expectations but whose performance varies within the Meets category can recommend between 2-4% per employee depending on their performance level within the category. During the pilot status, all employees whose performance was rated as Meets Expectations received the same merit payment amount regardless of the level of performance within the Meets category.

CONCLUSION:

We are requesting completion of the pilot status of the program based on the program's effectiveness over the last four and half years and because of the importance of the program. The program greatly enhances the quality and quantity of work and the performance management of the organization. The organization has benefited from implementing the system agency wide and will continue to benefit from the program as it evolves and is continuously improved.

We are requesting an additional 1% for each merit pay compensation rating category based on our experience with salary administration practices. A separate study was conducted by Human Resources to determine methods to improve SCAG's ability to attract and retain employees. This study is covered more thoroughly in the information item 6.1. However, in summary, this is an additional component that will assist SCAG in attracting and retaining high quality employees.

FISCAL IMPACT:

Each year SCAG applies the merit pay amounts within the established range based on the rating distribution and budget availability. It is anticipated that the next round of ratings will follow a similar pattern and that adequate funds are budgeted to cover the requested increase of 1% at the top of each range. SCAG will still retain the discretion to withhold the upper ends of the range if budget is not available to cover the rating distribution.
